CHIC, GREEN LIVING

Renewable, raw and sustainable are not terms that immediately summon images of a luxurious lifestyle. Years ago, these expressions may have evoked thoughts of a flower power era, but presently words like salvaged and organic are used to describe some of the most luxurious décor styles, designers and sophisticated lifestyle products and services worldwide.

The latest trends and products for a more luxurious and eco-friendly lifestyle...

Hastens

Susan Fredman

Sub-Zero

Susan Fredman Design Group: Embrace responsible design as a lifestyle, with a focus on utilizing sustainable materials and responsible design practices to create eco-friendly spaces that pay homage to nature rather than alluding to it. susanfredman.com

Kenne Shepherd Architect and Interior Designer: Advocates of a sustainable approach to residential design. Advise clients on the use of green building technologies, materials, lighting and furnishings, without sacrificing the level of quality that one associates with a luxury lifestyle. kenneshepherd.com

Pure Comfort by Donna Karan Home: Bedding collection constructed from 100% organically grown cotton—combining sophisticated functionality and continuous comfort for a healthier home environment. bloomingdales.com

EGM Green: Exclusive manufacturer of home casino and entertainment tables—100% green certified products include a variety of gaming tables and seating. Environmentally conscious luxury lounge furniture also available. egmgreen.com

Terra Zero Gravity Chair

Kenne Shepherd

EGM Green

Donna Karan

Yumi & Laurie blanQuettes: Oversized blankets combine the feel of a sophisticated Turkish towel with blended organic cotton and bamboo. Available in a variety of exquisite hues and elegant designs. yumiandlaurie.com

DineGreen.com: A plethora of "green certified" dining establishments—a favorite: GustOrganics—NYC's first USDA-certified organic eatery. From delicately prepared risotto to decadent dulce de leche ice cream—eating "green" no longer means sacrificing taste or ambiance. gustorganics.com

Terra Zero Gravity Chair: An innovative design made of bamboo, as strong and elegant as it is sustainable. Benefits of neutral positioning create the perfect posture to improve circulation. relaxtheback.com

Hastens: World class beds hand crafted in Sweden with all natural materials—flax, wool, cotton, pine and genuine horsehair. The exclusive brand takes no shortcuts in providing unsurpassable quality. hastens.com

Wall Makeup Kit: Non-toxic, eco-friendly premier paint kit. Mix thousands of custom colors with a few simple drops without ever leaving the comfort of your home. Create the perfect color, mail in the swatch and it will be matched and sent directly to you. kariwhitmaninteriors.com

Sub-Zero PRO 48 Refrigerator: Sleek in appearance and functional in design—energy efficiency is at the top of its credentials. Sub-Zero supports organic farmers and food artisans, uses renewable energy in their operations and sources environmentally friendly materials and supplies. subzero.com

Yumi & Laurie

ADD FLAIR AND PANACHE to your home and style of living, while contributing to the good of our environment. Protecting the planet where your luxurious adventures will be enjoyed results in a victory for everyone.
